The **SEPA Foundation** is one of the most dynamic scientific entities in Spanish dentistry and international periodontology.

Its congresses, publications and informative projects are a point of reference for the community of professionals in the world of periodontology and oral health as well as for patients and the general population.

SEPA has a firm commitment to science and research, prevention and health promotion, being at the forefront of innovation in implant therapy and regeneration techniques.

The congress of the celebration of Periodontology

It is a real pleasure for us to invite you to the congress that celebrates Periodontology, which will take place in Valencia from May 29 to June 1, 2019 in which we will celebrate the 60th anniversary of **SEPA**. It has been six decades which have made SEPA a reference for international Periodontology and Spanish dentistry. A journey complete with 53 annual meetings and several board meetings, which since the first one, presided by Manuel Fonseca, have allowed us to pace the scientific and clinical evolution of those dentists most interested in improving their knowledge. Now, from the SEPA Foundation, we have an ideal platform to develop our activities and initiatives in the frame of the general interest.

The SEPA Congress in its 60th Anniversary will be a special meeting.

Its program has been drawn up on the basis of scientific evidence and clinical application to allow an exchange of knowledge and experiences among colleagues that will enrich the day to day clinical practice and so that, above all, the benefit goes to our patients.

For this reason, we have put all our effort into designing an international first-rate scientific program in which any health professional can find a session in his/her particular interest, in line with SEPA's key working fundamental, *Periodontology for everyone*.

The **Sepa'19** scientific program will open on Wednesday May 29, 2019 with a masterclass on the 30 years of research in Periodontology led by Professor Mariano Sanz, who will receive the distinction of the SEPA Foundation Platinum Award, and on Thursday we will have a live surgery from Florence in which Francesco Cairo will perform a mucogingival surgery to cover gingival recessions. And from there, in addition to a wide commercial exhibition in Expoperio, there will be a great and diverse range of sessions, always under the unmistakable values of SEPA: rigor, innovation and excellence.

We are convinced that this program will be of your interest and we encourage you to be part of the congress of the celebration of Periodontology.

We will see you in **Valencia**
from **May 29 to June 1, 2019**

Valencia

Sitting by the waters of the Mediterranean, VALENCIA shines like a beautiful and cosmopolitan city. Friendly to its inhabitants and visitors, it has managed to combine modernity with its rich historical heritage.

A city to travel and savor. With fine sand beaches, a mild climate and excellent cuisine, which in May 2019 will be home to this very special meeting.

Feria Valencia

Its more than 230,000 m2 make it the largest exhibition area in Spain and one of the ten largest in the world.

Master Session

30 years of research in
Periodontology. Mariano

Sanz et al.

Mariano Sanz

Limited places.

Mariano Sanz will receive the Platinum Award from the SEPA Foundation during the celebration of Sepa'19 in Valencia from May 29 to June 1, 2019.

At 60 years of age, Mariano Sanz is recognized as a master of masters in Spain and in the international Periodontology scene, a discipline in which he is a professor at the Complutense University of Madrid.

His intense activity, committed to research throughout his more than three decades of dedication will be shown in a session of more than three exceptional hours, in which he will go through the different lines of work that have marked the trajectory of Professor Mariano Sanz:

1. Antimicrobial agents.
2. Periodontal Regeneration.
3. Bone regeneration.
4. Peri-implant diseases.
5. European Periodontology Workshop.

Professor Sanz will act as a master of ceremonies in a special session that he will share with his celebrated teachers and his disciples and students.

Celebrate Periodontology by starting the congress on May 29, 2019 with this unique and unforgettable master session that Sepa'19 is bringing to the entire periodontal community.

Thursday, May 30 ☉ 10am – 12pm

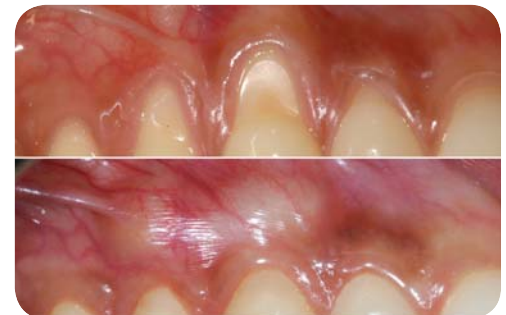

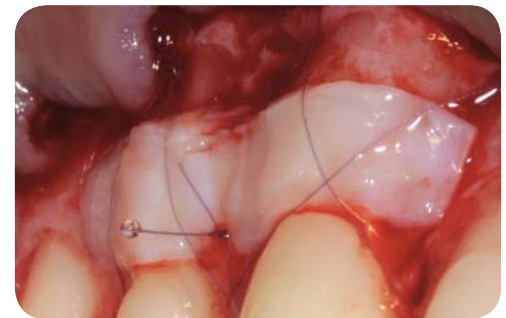

Live surgery
from Florence

Mucogingival surgery for treating
multiple gingival recessions.

Francesco Cairo

Included in the registration to
SEPA Periodontology.

Limited places.

10am-12pm

Live Surgery. Francesco Cairo

	ROOM 1	ROOM 2	ROOM 3	ROOM 4
12:30am-2pm	Symposium Minimally Invasive surgery 	Periodontal treatment from A to Z 	Symposium on aesthetics of the smile 	Milestones in research on implant therapy
12:30am-1:15pm	Minimal invasion in implant therapy on the anterior sector. Eric Van Dooren	Applications of advanced periodontal diagnosis. A. J. Van Winkelhoff	Determining factors in the aesthetics of the smile. Giovanni Zuchelli	Milestones in research on implant therapy: an overview. Jan Lindhe
1:15pm-2pm	Minimal invasion in mucogingival surgery. Pat Allen	Motivation, hygiene education and modification of habits: the basic pillars of periodontal treatment. Christoph A. Ramseier	Digital design of dentofacial aesthetics. Andrea Ricci	Milestones in research and their clinical applications in the healing of the post-extraction alveolus and alveolar preservation. Maurizio Araujo
2pm-3pm	EXPOPERIO			
3pm-4:30pm	Symposium Minimally Invasive surgery	Periodontal treatment from A to Z 	Symposium on aesthetics of the smile 	Milestones in research on implant therapy
3pm-3:45pm	Minimal invasion in apical surgery. Rino Burkhardt	Non-surgical periodontal treatment: methods, coadjuvant options and efficiency. David Herrera	Aesthetic treatment of the gingival smile. Paulo Mezquita de Carvalho	Milestones in research and their clinical applications in the immediate placement of implants. Klaus Lang
3:45pm-4:30pm	Minimal invasion in periodontal surgery. Otto Zuhr	Is periodontal surgery still necessary? Filippo Graziani	Digital design of dentofacial aesthetics. Martina Stefanini	Developments from research on long-term peri-implant crestal bone stability. Daniel Buser.
4:30pm-5:30pm	EXPOPERIO			
5:30pm-7pm	Symposium Minimally Invasive surgery 	Periodontal treatment from A to Z 	Symposium on aesthetics of the smile 	Milestones in research on implant therapy
5:30pm-6:15pm	Minimal invasion in regenerative periodontal surgery. Leonardo Trombelli	Restorative treatment of the periodontitis-susceptible patient. Ernesto Lee	New trends in aesthetic restorations in the anterior sector in implant therapy. Fernando Rojas Vizcaya.	Milestones in research and its clinical applications in peri-implant diseases and the periodontitis-susceptible patient. Tord Berglundh
6:15pm-7pm	Minimal invasion in crown lengthening with restorative objectives. Anton Sculean	Risk assessment and prognosis of long-term natural dentition. Peter Eickholz	New trends in aesthetic restorations in the anterior sector, in natural dentition. Ernesto Montañés	
7pm-8pm	SEPA Assembly			

	ROOM 1	ROOM 2	ROOM 3	ROOM 4
9am-11am	<p>3D Symposium: Reconstructive periodontal therapy in natural dentition</p> <p>Moderator: Antonio Liñares and Raul Caffesse.</p> <p>Periodontal regeneration: general vision. Maurizio Tonetti</p> <p>Mastering the treatment of intrabony defects. Sandro Cortellini</p> <p>Mastering the treatment of furcation defects. Maurizio Tonetti</p> <p>Periodontal regeneration: future trends. Sandro Cortellini</p>	<p>The state of the art in bone regeneration in implant therapy</p> <p>Moderator: Mariano Sanz</p> <p>Biological keys in bone regeneration. Mariano Sanz</p> <p>Evidence-based treatment of the post-extraction alveolus. Maurizio Araujo</p> <p>Horizontal bone regeneration. Gustavo Avila</p> <p>Which are the membranes and grafts of the future? Saso Ivanovski</p> <p>Debate.</p>	<p>Interdisciplinary Symposium. Periodontology and prosthetics, where are we today?</p> <p>Moderator: Juan Flores</p> <p>Root coverage prior to restorative treatment. Alfonso Gi</p> <p>Mucogingival surgery and provisionalization in immediate implants. Alberto Fernández Ayora</p> <p>Keratinized gingiva and peri-implant health. Neus Carrió</p> <p>Periodontitis and its systemic consequences. Eduardo Montero</p> <p>Prostheses over implants as a peri-implant risk factor? Fernando Luengo</p>	
11am-12am	  EXPOPERIO			
12am-2pm	<p>Biological considerations in implant prostheses</p> <p>Moderator: Tord Berglundh</p> <p>Peri-implant tissues in health and disease. Tord Berglundh</p> <p>Influence of implant designs and their prosthetic abutments. Juan Blanco</p> <p>Biological implications of cemented or screwed crowns. Nicola Zitzmann</p> <p>Relevance of prosthetic design in implant restorations. Eriberto Bressan</p> <p>Debate.</p>	<p>Periodontal treatment in the 21st century: How and when do we perform periodontal treatment?</p> <p>Moderator: Filippo Graziani</p> <p>Current periodontal treatment. Filippo Graziani</p> <p>Are there alternatives to quadrant treatment? Cristiano Tomasi</p> <p>When and how do we perform conventional periodontal surgery today? Mario Aimetti</p> <p>When and how do we perform regenerative periodontal surgery today? Diego Velasquez</p> <p>Debate.</p>	<p>The influence of prosthetic preparation on the dentogingival union</p> <p></p> <p>Presentation: State of the question. What is the biological width? Blas Noguero</p> <p>Vertical preparation and dentogingival junction. Ignacio Loi</p> <p>Horizontal preparation and dentogingival junction. Gianlucca Paniz</p> <p>Debate.</p>	<p>SEPA & CED-IADR symposium: The benefits of periodontal health: what research tells us</p> <p>Presentation. What is IADR. David Herrera</p> <p>Assessment of periodontal health: a new challenge in patients with or without history of periodontitis. Magda Feres</p> <p>The systemic benefits of periodontal health. Phoebus Madianos</p> <p>The patient-based benefits of periodontal health. David Herrera</p> <p>Summary and conclusions.</p>
2pm-3pm	  EXPOPERIO			

	ROOM 1	ROOM 2	ROOM 3	ROOM 4
3pm-3:15pm	Platinum Award Session			
3:15pm-5pm	<p>60 years SEPA. Clinical Periodontology in retrospective.</p> <p>Moderator: Maurizio Tonetti and David Herrera.</p> <p>60 Years of Periodontology in Spain. Mariano Sanz</p> <p>40 years of Periodontology in Europe. From Aarhus to Madrid. Niklaus Lang</p> <p>Study of bone and implants with periodontal eyes. Jan Lindhe</p> <p>Periodontal plastic surgery. 60 years of evolution.</p> <p>Think outside the box. Mike Newman</p> <p>Debate.</p>	<p>Treatment of Periimplantitis.</p> <p>Moderator: Frank Schwarz</p> <p>Treatment of Periimplantitis: a general vision. Frank Schwarz</p> <p>New vision on the pathogenesis of peri-implantitis and its impact on treatment. Lior Shapira</p> <p>What can be achieved with the non-surgical treatment of peri-implantitis? Antonio Liñares</p> <p>Can we rebuild the lost bone around the implants that have suffered a peri-implantitis? Jan Derks</p> <p>Debate.</p>	<p>Treatment plan in the susceptible patient: How to rehabilitate cases with questionable prognosis.</p> <p>Moderators: Juan Rumeu and Mónica Vicario</p> <p>How to assess the long-term prognosis of teeth with periodontitis. Pedro Martínez Canut</p> <p>Regenerative periodontal therapy and modification of periodontal prognosis. Daniel Rodrigo</p> <p>What microsurgery provides us in the treatment of teeth with questionable prognosis. Ignacio Arregui</p> <p>Mucogingival surgery and periodontal health. Nelson Carranza.</p> <p>Orthodontic treatment in dentition with reduced periodontium. Francisco Enrile</p>	<p>Alliance for Health Symposium.</p> <p>Promoting periodontal health and general health.</p> <p>Moderator: Elena Figuero</p> <p>Periodontal medicine: the origins, the evolution and the future. A tribute to Steven Offenbacher. Phoebus Madianos</p> <p>The concept of the mobile microbiome and its implications in periodontal medicine. Robert Genco</p> <p>Diabetes and periodontitis. Evantia Lalla</p> <p>Periodontitis and cardiovascular risk. Francesco D'Áiuto</p>
5pm-6pm	  EXPOPERIO			
6pm-8pm	<p>Periodontal treatment in the 21st century: Evolution of surgical design in periodontal plastic surgery.</p> <p>Moderator: Alberto Sicilia</p> <p>The papilla flap preservation technique.</p> <p>Evolution in the preservation of papilla. Pier Paolo Cortellini</p> <p>Coronal advance flap for the treatment of single and multiple recessions. Giovanni Zucchelli</p> <p>Principles of tunneling for treatment of single and multiple recessions. Ion Zabalegui</p> <p>Debate.</p>	<p>New classification of periodontal and peri-implant diseases: how to apply them in daily practice.</p> <p>Moderator: Elena Figuero</p> <p>Gingivitis. Maurizio Tonetti</p> <p>Periodontitis. Magda Feres</p> <p>Mucogingival deformities. Gustavo Ávila</p> <p>Peri-implantitis. Tord Berglundh</p> <p>Debate.</p>	<p>New therapeutic approaches on examination.</p> <p>3D Printing. Saso Ivanovski</p> <p>What does the SMART technique bring? Ernesto Lee</p> <p>PRGF 2019, where are we? Eduardo Anitua</p> <p>Oseodensification, what does it consist in? Ziv Mazor</p>	<p>Innova Session</p> <p>Oral Medicine</p> <p>Therapeutics of implants and use of bisphosphonates. Gerardo Gómez Moreno</p> <p>White and red lesions of the oral mucosa. José Vicente Bagán</p> <p>Aphthous lesions and bullous vesicle of the oral mucosa. José Manuel Aguirre</p>
9:30pm	CONGRESS DINNER at the UMBRACLE			

	ROOM 1	ROOM 2	ROOM 3
9am-11am	<p>Surgical sessions with the masters: How to treat aesthetic complications in implant therapy. Moderator: Óscar González</p> <p>9am-9:40am Bases for the prevention of aesthetic complications in implant therapy: an overview. Daniel Buser</p> <p>9: 40am-10:20am How to avoid and treat aesthetic complications in delayed implant placement. Ronald Jung</p> <p>10: 20am-11:00am How to avoid and treat aesthetic complications in the immediate placement of implants. Paulo Mezquita de Carvalho</p>	<p>OrthoPerio Symposium: Indications of auto transplantation as an alternative to implant treatment in young patients Eva Chocrovska Pawel Plakwicz</p>	<p>Symposium: Periodontal treatment in the 21st century: Antimicrobial agents in periodontitis Moderator: A.J. Van Winkelhoff</p> <p>9am-9:20am Antimicrobial therapy in the treatment of periodontitis: critical review. A.J. Van Winkelhoff</p> <p>9:20am-10:40am Antimicrobials in periodontitis stage 2 and 3 . Magda Feres Antibiotics in periodontitis stage 4. David Herrera Long-term benefits of antimicrobial therapy on tooth survival. Peter Eickholz</p> <p>10:40am-11am Debate.</p>
11am-12pm	  EXPOPERIO		
12pm-2pm	<p>12pm-12: 40pm How to avoid and treat aesthetic complications in the increase of soft tissues around implants. Rino Burkhardt</p> <p>12: 40pm-1:20pm How to avoid and treat complications in bone reconstruction with membranes. Istvan Urban</p> <p>1: 20pm-2:00pm Retreatments of complications in implants. Otto Zuhr</p>	<p>OrtoPerio Symposium: Indications of auto transplants as an alternative to implant treatment in young patients Eva Chocrovska Pawel Plakwicz</p>	<p>Innova Session Where is periodontology going to? Moderator: Mariano Sanz</p> <p>Pathogenesis of periodontitis: the Page & Schroeder model under examination. Maurizio Tonetti</p> <p>What is the infectogenomics? A.J. van Winkelhoff</p> <p>Periodontal Epidemiology. Panos Papananou</p> <p>The future of periodontology. Keneth Kornman</p> <p>Debate.</p>

ROOM 5

9am -11am

Key factors in oral health   

9am -9:40am

The impact of nutrition on the periodontal state. Reality or myth? Cristina Serrano

9:40am-10:20am

Caries and periodontitis, what we should know and how to prevent and treat. Elena Figuero

10:20am-11am

The dental practice as a tool in the early detection of systemic pathology. Gerardo Gómez Moreno

11am -12pm

EXOPERIO

12pm -2pm

Maintaining results in the long term  

12pm-12:40pm

New challenges in patient motivation How to change habits efficiently. The perspective of a psychologist. José Luis Arroyo

12:40pm-1:20pm

How to determine the appropriate and personalized periodontal maintenance guidelines. Bettina Alonso

1:20pm-2pm

The aging of the population. Key considerations in the complexity of geriatric periodontology. Lorenzo De Arriba

2pm-3pm

EXOPERIO

3pm-5pm

Interdisciplinary reality: latest trends  

3pm:3:40pm

Team work in hygienists and periodontists in orthopedic treatment. Joana Roselló

3:40pm-4:20pm

Endo-periodontal treatment: state of the matter. Francesc Abella

4:20pm-5pm

Improving the prognosis of natural dentition through interdisciplinary solutions: prosthodontics - periodontology. Germán Barbieri

5pm-6pm

EXOPERIO

6pm - 8pm

Update in peri-implantitis  

6pm - 6:40pm

Latest news in the diagnosis of peri-implant diseases. Alberto Monje

6:40pm - 7:20pm

Latest news in the non-surgical and surgical treatment of peri-implantitis. Silvia Roldán

7:20pm - 8pm

Failure in the treatment of peri-implantitis. How to handle these cases within the team. Pedro Buitrago

9:30pm

CONGRESS DINNER at the UMBRACLE

ROOM 5

9am-11am Pure periodontology     

9am-9:40am **News in the clinical and radiological diagnosis of periodontitis.** Ana Echeverría

9:40am-10:20am **New instrumentation systems in teeth and implants. Evaluation of results. Do they bring something new?** Ignacio Sanz Sánchez

10:20am-11am **Update in periodontal surgery in the posterior area.** Berta García Mur

11am-12pm

12pm-2pm Digital tools at the dental clinic  

12pm-12:40pm **The digitalization of the dental clinic.** Guillermo Pradies

12:40pm-1:20pm **Digital planning of the smile from gingival aesthetics.** Marta Revilla

1:20pm-2pm **Adapting to digital dentistry: New materials and instruments.** Carlos Fernández Villares

Thursday May 30, 2019 (Pre-congress)

ROOM 6	
3pm - 4pm	Limits in the day to day between the ownership, management and care management of a dental clinic. Luis Mateos
4pm - 5pm	Before a transfer, offer or integration of a new partner, how is it raised and how is a dental clinic valued? Luis Tejerina
5pm - 6pm	  EXOPERIO
6pm - 7.30pm	Strategic vision for a dental practice. Carlo Gallucci.

Friday May 31, 2019

ROOM 6	
9am-11am	From managing personnel to managing people and equipment
9am-10am	How to align all people in the dental team through a correct definition of responsibilities and work protocols. Sebastián Fabregues
10am-11am	The importance of motivation and incentive management. Enrique Salas Rincón
11am-12pm	  EXOPERIO
12pm-2pm	From intuition to management by indicators
12pm-1pm	How to transfer good management practices from other healthcare models to the quality of care in dental clinics. Javier Elola
1pm-2pm	From intuition to management by indicators in the dental clinic. Francisco Enrile
2pm-3pm	  EXOPERIO
3pm-5pm	From procedures to attitude
3pm-5pm	The power of each person's attitude to contribute to improving their individual professional development and that of their team and organization. Emilio Duró
5pm-6pm	  EXOPERIO
6pm-7:30pm	From procedures to attitude
	The power of each person's attitude to contribute to improving their individual professional development and that of their team and organization. Emilio Duró

9:30pm

CONGRESS DINNER at the UMBRACLE

Saturday June 1, 2019

ROOM 6	
9am-11am	From analog management to the integration of digital workflow
9am-10am	The digital flow. Are we facing a paradigm shift? Guillermo Pradies
10am-11am	What does the market offer? Advantages and disadvantages of existing proposals. Víctor Cambra
11am-12pm	  EXOPERIO
12pm-1pm	The challenges of the digital era in business management. Daniel Maestro
1pm-2pm	Digital transformation to recruit and retain patients. Hugo Madeira
